tional particulars:

A terrible socident took place yesterday on the B. & O. Railroad, Central Ohio Division, near Williams' coal bank, about four miles east of Cambridge, by the collision of Passenger train No. 2, coming west, and an extra engine going east. Three men were killed, or died shortly afterward, two badly wounded and a number of others slightly injured.

It seems that the heavy rains of yesterday had washed down a considerable amount of earth into the tunnel at Cambridge, so as to obstruct the passenge of trains, and the east bound passenger train No. 5 was compelled to lay off this side of the tunnel until the obstruction was removed. RIVER NEWS .- The river continued four o'clock, when there was a perceptible checking up of its ascent on the marks. We visited the landing between the hours mentioned, and were informed that the stage was twentythree feet. A dispatch from Pittsburgh was received stating that the river was DRESS TRIMMINGS. falling, with fourteen feet in the channel. During the entire day logs and debris of all sorts passed this point, but not in any degree interfering with safe navigation. EMP. KID GLOVES.

I HAVE used my Wheeler & Wilson Machine for more than fourteen years, without a cent's worth of repairs, and I would not give it for a new one today. It looks rather the worse for wear, but works like a charm. I used one needle for five years, until it was worn too short for any further use. I have made one thousand custom shirts, and stitched lifty-six dozen collars, four ply, each day for four years, lars, four ply, each day for four years. The Rebecca has been handsomely painted, and looks as gay as a bride. She leaves for Parkersburg this morning at 11 o'clock. The St. Marvs is expected here this evening about seven or eight o'clock, and will leave for Cincinnati after discharging what freight she may have for this point, and taking on sands of them are constantly relating board what may be offered. Last Sunday's Fight.—In Monday morning's paper we made mention of a fight which came off the previous evening down in Justice Schultz's Jurisdiction. The parties were known, but eluded the vigilance of the officers until yesterday afternoon, when two of them, Charles Witte and Fred Martin, were secured. They had a hearing before 'Squire S. last evening, which resulted in the discharge of Witte and the fining of Martin ten dollars and the fining of Martin ten dollars and the fining of Martin ten dollars and the greaume he will yet be arrested and brought to trial.

Police Court.—In the absence of Judge Good, the duty of presiding in Police Court, yesterday morning, devolved on His Honor, Mayor McCleilan. We believe it was his first appearance in that role, and we were favorably impressed at the apparent ease with which he sustained himself in his new character.

New River, one of the confluents of the Great Kanawha, has been successfully navigated a distance of thrity miles, to a point called Bowyer's Ferry. James H. Dempsey, of Fayette county, took a bateau 50 feet long, 8 feet wide and 22 inches deep to that place. It required seven men six days to accomplish the journey. Mr. D. reports "the river much worse than it is commonly understood to be, as every few hundred yards they encountered perpendicular falls, varying from two to four feet high, and that it was a common thing to pass up slopes from four to seven feet in height."

The Kate Putnam left for Pittsburgh yesierday without taking any freight from here, other than what she already had aboard when she arrived from St. Louis and laid up on account of low water.

GERMAN IN THE PUBLIC SCHOOLS Our readers will remember that the Board of Education of this district at its last meeting, adopted a plan for the indent on the Central Onio Ralifond near troduction of the German language in free to the profes the sppearance of that dispatch, we the public schools. This week the measure has been inaugurated. Like every thing else which is a departure from the regular routine, the work of organization is one of no small magni tude. The teachers have been selected, and have entered on their duties with a determination to make it succeed. Rev. Mr. Lampe has been put at the head of the enterprise. His assistants are Rev. Mr. Findling, pastor of one of the Lutheran Churches in the city, and Mrs. Gehling, formerly of Cincinnati. Both the Principal and those who have D. K. IRWIN & CO., been selected to assist him in carrying out the design of the Board, are well qualified for the positions to which they have been assigned, and we are confioff this side of the tunnel until the obstruction was removed. No. 2 passenger train came to Campbell's Station, the engine hauling the train with tender in front. At this station the train was supposed to have laid off, for the passage of No. 5 going east. An engine was sent out from Cambridge, with Mr. James B. Guthrie, a freight conductor, on board, who carried instructions to dent that the instruction of American and German children, jointly, will prove mutually advantageous.

the conductor of passenger No. 2 to come on to Cambridge and not wait No. 5. This engine was running backwards, at about twelve miles an hour, and when near Williams' coal bank, in a deep, foggy hollow, collided with the passenger train, running, perhaps, firteen or eighteen miles an hour. The concussion was terrible, the engine of the passenger train almost bounding on top of the extra engine. Jas. B. Guthrie, of this city, on the freight engine, was fatally injured, dying a short time after the accident. Mr. Leasherman, of this city, fireman on the same sogine, was almost instantly killed, and a man named Trainer, supposed to belong here, who had been put off the passenger train at Gibson's Station, but got on again, and was, it is supposed, riding on the platform of the baggage car, was crushed to pleces, killing him instantly. Mr. James Mathews, of this city, fireman on the passenger engine, had a leg broken, and Mr. Wilson Wildman, engineer of the extra engine, had an ,ankle crushed. The seats on cone side of the first passenger car were all broken loose, and a number of passengers slightly injured—none, however, seriously. Both engines were badly wrecked, and the baggage und some of the passenger cars greatly damaged.

The passengers of the train were Washington Hall .- The same ex cellence of acting characterized the performances at Washington Hall last evening, as that which we have mentioned in our notices during the past week. This afternoon a grand family matinee will be held at 2 o'clock. The bill for the occasion is a choice one. To-night the full strength of the company will be brought out in rendering the Rover's Bride, or the Pirate's Wedding, to conclude with the Working men of Paris. WART OF USIFORMITY, AND HOW WE PREVEST IT.

The want of uniformity in Boots and Shoes, it is well known, equals if not exceed that of any other kind of manufactured goods. In order to protect ourselves and customers, we make it a rule not to receive or piace on sale any goods not regular and uniform, except they be too low in price to allow of uniformity. To insure this every pair of Boots and shoes that enters our store is carefully examined and rejected unless found correct in size, free from damage and uniform in quality.
